THE PEOPLE BEHIND THE PORT

OUR FINANCE AND ADMINISTRATION DEPARTMENT

Last but certainly not least, it's time to introduce the Finance and Administration team at Pacific Coast Terminals Co. Ltd. Though perhaps not as hands on around the site as Maintenance, Engineering and Operations, don't let that small detail fool you! This group is active behind the scenes making sure everything runs smoothly, and is responsible for many of the day to day tasks that provides support to the rest of the team and contributes to their success.

Wade Leslie is the President and Chief Executive Officer of both Pacific Coast Terminals Co. Ltd. and Sultran Ltd. He manages the strategic direction of the combined PCT and Sultran enterprise, and works closely with our Board of Directors. Born and raised in Winnipeg, Wade started his career at PCT in 1999 in the Maintenance and Engineering Department. He soon moved to Terminal Manager, followed by Vice-President and General Manager before he started his current appointment in May of 2018.

Andre Olivier, the current Vice-President and General Manager of the terminal, started his professional career in 1997 at an international sugar facility in South Africa before gaining further engineering, maintenance, and operational experience in Mozambique. Andre joined PCT in 2007 as Staff Engineer before advancing to Assistant Manager, Engineering and Environment and then Manager of Engineering in 2013.

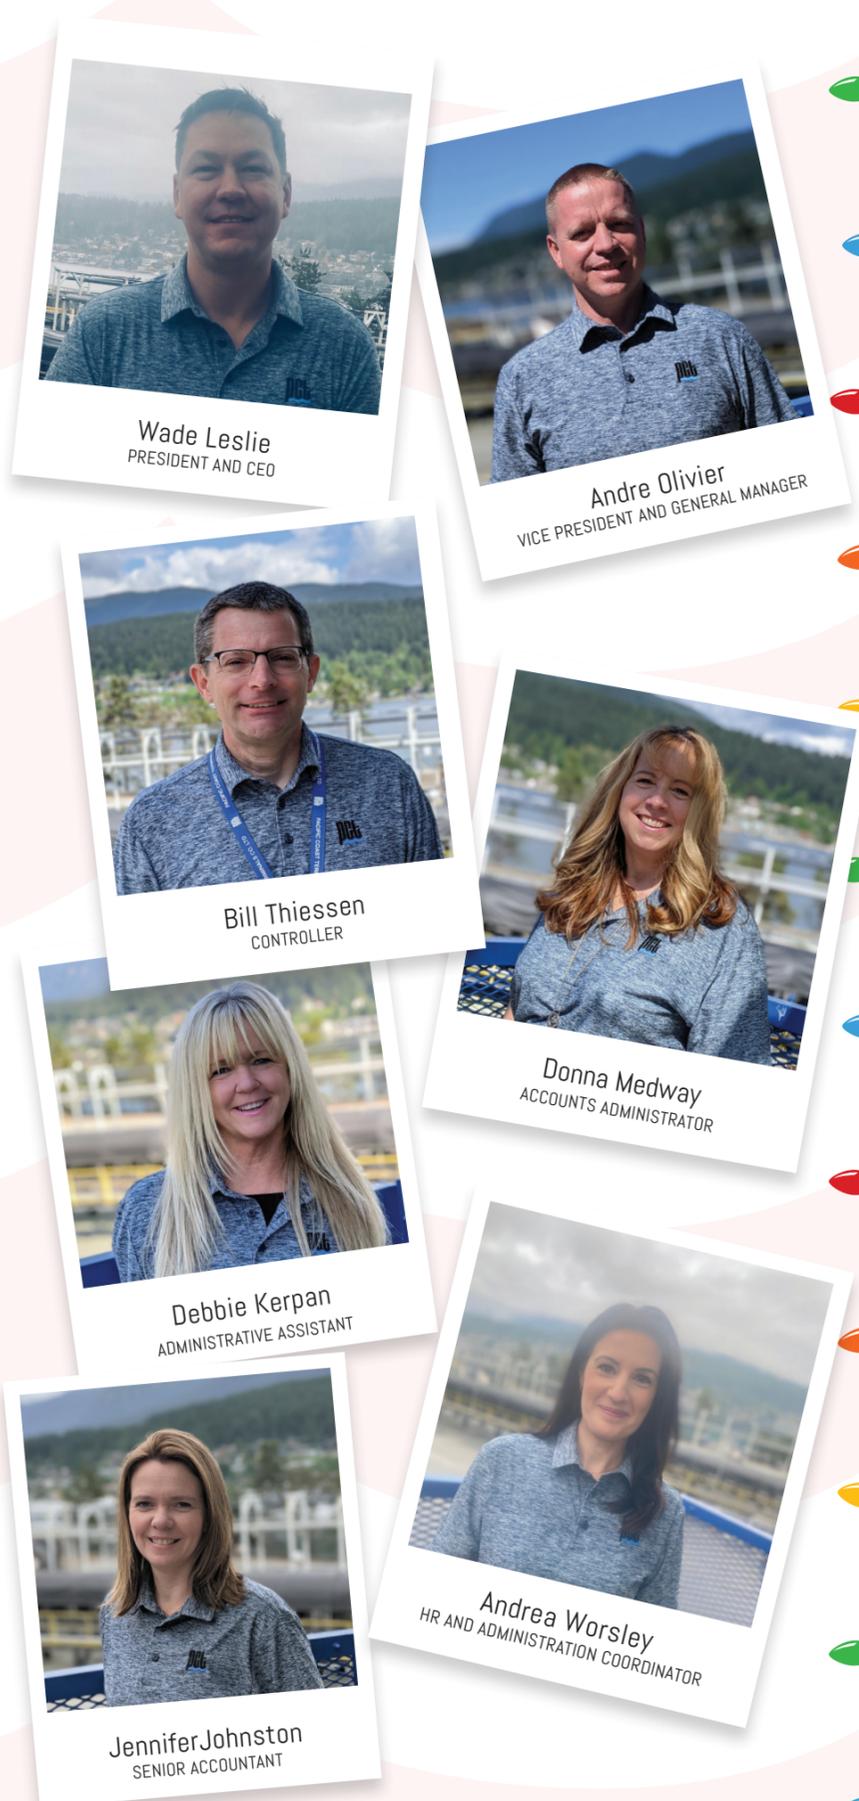

The rest of the team is led by Bill Thiessen, the Controller at PCT. Bill held many financial management roles across various sectors before joining PCT in May of 2010. He holds a CPA, CA and directly manages the rest of the Finance and Administration staff. Bill is patient, kind, and extremely outnumbered. Though if asked, he would also say that he is very well supported. Jennifer Johnston, CPA, CGA and the Senior Accountant, has been with PCT for well over a decade and effectively runs many of the various accounting duties on a day to day basis. Debbie Kerpan, the newest member of our team, is the reason our office runs as smoothly and effectively as it does. She also works closely with other departments helping with essential administrative tasks. Andrea Worsley (yours truly), focuses on staff payroll and HR, recruitment, policy and procedures, business relations, community relations and of course writing killer newsletters.

Now, we cannot chat about this department without giving a special shout out to Donna Medway. Donna started at Pacific Coast Terminals in October of 1987 (we'll do the math for you...that's almost 35 years). Starting before some of our other employees were even born, there is nothing Donna hasn't seen or heard in her tenure at PCT. Not only is she a wealth of information, she has some wicked stories to tell – and some she'll never tell!

So, introductions aside, what does this department actually do? We get that a lot. Even from our very own colleagues. The answer is everything, and it might just be easier to list them:

- ✓ Strategic Planning
- ✓ Organizational change and development
- ✓ Corporate Governance
- ✓ Project Management
- ✓ Finance
- ✓ Developing Budgets
- ✓ Producing monthly, quarterly and annual reports
- ✓ Office and facilities management
- ✓ Clerical tasks
- ✓ Writing contracts
- ✓ Legal reviews
- ✓ Updating and managing reporting software
- ✓ Internal document control
- ✓ Managing meetings and travel
- ✓ Employee relations

There is probably a lot more, but in all fairness it couldn't be done without the support of the rest of the Pacific Coast Terminals team. One of the best things about this organization is just how well everyone works together. The company is built on teamwork, collaboration, and trust. Everyone, throughout all departments, is focused and works extremely hard every single day. There is pride in the work being done and this unique, dedicated, and intelligent group of individuals is what has allowed Pacific Coast Terminals Co. Ltd. to grow and develop successfully (with of course a bit of fun along the way). We hope you've enjoyed meeting us all!
